

ACCEPTABLE TRAINING FACILITIES LIST

The flight schools that are listed have demonstrated they maintain flight training programs acceptable to Aerospace for designated aircraft. Aerospace does not recommend or endorse the nature or quality of the pilot training provided by any flight school.

Aerospace reserves the right to charge additional premium to grant additional insured status to any flight training facility.

Application for inclusion on this list may be initiated by submission of a completed Flight Training Survey to the underwriter responsible for the account. Inclusion will only be approved following review of the Flight Training Survey

The information provided here is as reported to us and accurate to the best of our knowledge, but may be subject to change. Users should validate the information to ensure accuracy before committing to flight training. Aerospace will endeavor to provide current information as we receive it.
